

FAASTeam presents:

## **Poplar Grove IMC and VMC Safety**

IFR: Upgrades are expensive, so many of us make do with a mixed panel of old and new technology. That's fine as long as you don't lean too heavily on equipment that's long in the tooth. This flight pushed that limit and put you in a pickle: Press on with a problem or make a high-stakes diversion?

VFR: You made a series of reasonable decisions in the name of comfort and safety, only to create a situation where you're tight on both fuel and options. Will you wager your last hour of fuel on making just one landing at the airport beneath you or take the chance on making it to an alternate?

Members watch 2 short videos scenarios and discuss how they would respond to the given situations. This is an open forum for free ideas and we all learn from shared experience! All are welcome to join in. With the combined IFR & VFR scenarios' this seminar should be 2 hours long and enhance everyone's education.

Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.

## Event Details

**Wed, Jun 14, 2023 - 19:00 CDT**

**EAA Chapter Hangar**

5175 Orth Rd, Poplar Grove, IL

Farthest west hangar upstairs

Poplar Grove, IL 61065

**Contact: Larry MARTIN**

**(872) 205-0924**

[larrymartin22@icloud.com](mailto:larrymartin22@icloud.com)

Select #: GL13122282

Representative LAWRENCE JAMES MARTIN

**Directions:** Meeting held at EAA 1414 hangar which is off of Orth Rd, the furthest west hangar in the Upstairs classroom. If flying in, the hangar is on the far North side of the field, and can taxi up to just short on the east side of the Chapter hangar.

**A message from the National FAASTeam Manager**
